

Recording Now Available! Maximizing Home Comfort and Savings: A Guide to Residential Heat Pumps, Weatherization, and Available Incentives Webinar

In case you missed it!

POSTED ON: SEPTEMBER 25, 2023 - 3:58PM

The Reading Municipal Light Department (RMLD) and its contractor, Abode Energy Management (Abode), partnered to present a live webinar about the benefits of residential heat pumps and available rebates and incentives including RMLD's new weatherization rebate.

Key topics to be covered during the webinar, titled "Maximizing Home Comfort and Savings: A Guide to Residential Heat Pumps, Weatherization and Available Incentives" included:

- **Benefits of Residential Heat Pumps:** Discover the numerous advantages of residential heat pumps, including energy savings, reduced carbon footprint, and enhanced comfort.
- **Types of Heat Pump Units:** Gain insights into the different types of heat pump units available and find out which one suits your needs best.
- **New Weatherization Rebate:** RMLD's new weatherization rebate is designed to encourage and support customers who are installing heat pumps, as well as those whose heating load is primarily fueled by electricity.
- **RMLD's Existing Heat Pump Rebate:** Learn about RMLD's existing heat pump rebate program, which provides financial incentives for the installation of energy-efficient heat pumps. Details on the rebate process will also be addressed.

- **Importance of Weatherization:** Understand the significance of weatherization in improving energy efficiency and reducing energy bills.

Here is a link to the webinar recording. Thank you all who joined us!
