AGENDA

RMLD CITIZENS' ADVISORY BOARD (CAB) TUESDAY, OCTOBER 4, 2011

7:00 P.M.

at

READING MUNICIPAL LIGHT DEPARTMENT SPURR/AV ROOM 230 ASH STREET READING, MA 01867

- 1. Call Meeting to Order A. Carakatsane, Chairman
- 2. Minutes of Meetings April 14, 2011 and April 26, 2011
- 3. Energy Services Update W. Seldon
 - a. Sustainable Energy Policy Attachment
 - b. Environmental Policy Attachment
 - c. Net Metering Rate Attachment
- 4. Renewable Energy Certificates (RECs) V. Cameron, W. Seldon
- 5. FY11 Audited Financials R. Fournier
- 6. August 2011 P & L Financials R. Fournier
- 7. Engineering and Operations Update V. Cameron
- 8. Other Items for Discussion
 - a. NEPPA Conference A. Carakatsane
 - b. Approving Executive Session Minutes in Regular Session V. Cameron
- 9. Schedule Next Meeting
- 10. Executive Session Minutes

Suggested Motion:

MOVE that the CAB go into Executive Session based on Chapter 164, Section 47D exemption from public records and open meeting requirements in certain instances, to discuss power supply strategy, renewable energy projects, approve minutes, and return to regular session for the sole purpose of adjournment. *Note: Polling of the CAB members is required.*

11. Adjournment

This Agenda has been prepared in advance and does not necessarily include all matters, which may be taken up at this meeting.

Upcoming RMLD Board Meetings:

Wednesday, October 26 2011 - Regular RMLD Board Meeting - CAB Representative: Arthur Carakatsane

ITEM 2. Minutes of Meetings

CITIZENS' ADVISORY BOARD (CAB) **MEETING MINUTES Regular Session**

TIME:

6:30 P.M.

DATE:

Thursday, April 14, 2011

PLACE:

Lynnfield Town Hall, 55 Summer Street, Lynnfield

PRESENT:

CAB: A. Carakatsane, Chairman, (Lynnfield), J. Norton, Secretary, (North Reading),

G. Hooper (Wilmington), T. Ollila (Wilmington), T. Capobianco (Reading)

RMLD Board: R. Hahn.

RMLD Staff: V. Cameron, P. O'Leary, K. Sullivan, T. O'Connor, R. Fournier, P. Price,

N. D'Alleva, M. Uvanni, J. Donahoe

1. Call Meeting to Order – A. Carakatsane, Chairman

Chairman Carakatsane called the meeting to order at 6:30 P.M. and announced the meeting is being recorded.

2. Introduction of new Reading CAB Member – A. Carakatsane, Chairman

Chairman Carakatsane introduced and welcomed the newest CAB Member from Reading, Tony Capobianco Tony noted he is also a member of the Reading climate committee, Cities for Climate Protection.

3. Minutes of Meeting - December 8, 2010 - A. Carakasane

Mr. Hooper made a motion seconded by Mr. Norton to approve the December 8, 2010 minutes as presented. Motion carried unanimously 5:0:0.

Note: Items taken out of order.

5. NEPPA 2011 Annual Conference – August 21-24 – V. Cameron

Ms. O'Leary stated that the Conference is at the Samoset Resort in Maine this year, and suggested that a motion be done tonight to approve the number of members who wish to attend.

Mr. Norton made a motion seconded by Mr. Hooper to approve up to five members attending the 2011 NEPPA Conference in Rockport Maine.

Motion carried unanimously 5:0:0.

4. FY12 Capital Budget - V. Cameron.

The Facilities and MIS budgets were discussed first. Mr. Donahoe, Facilities Manager, outlined Projects 18 through 21. A correction on the summary for Project 18 was noted--"Two New Vehicles" should be changed to "One New Vehicle". Regarding Project 19, Mr. Donohoe stated that since 2005, two new line vehicles are replaced each year. He added that there are a total of 18 line department vehicles.

Mr. Capobianco asked if the old trucks are sold.

Mr. Donahoe explained the surplus policy.

Mr. Ollila asked if the trucks are standard, and Mr. Donahoe responded that the trucks are built to the RMLD's specifications usually using an International body.

Mr. Carakatsane asked about Project 21, Roof Top Units, and the efficiency of the units. Mr. Donahoe responded that whenever he purchases anything, he consults RMLD's Efficiency Engineer, Jared Carpenter.

Mr. Capobianco asked how much savings are anticipated.

Mr. Donahoe did not know the dollar value, but the SEER (Seasonal Energy Efficiency Rating) for a 7 1/2 ton unit is between 11 and 14.8 depending on the cost.

Citizens' Advisory Board Meeting Minutes April 14, 2011

Mr. Uvanni, MIS Manager, discussed Projects 27 and 28. He explained the MIS Department is currently working on an initiative to allow customers to go to paperless billing and manage their own payment schedules. He added the initiative will begin May 1 and save thousands of dollars a month. He noted that a payment scanning system has been added in Customer Service so that a payment stub and check can be scanned, which produces an image of both the check and stub on the computer, records the payment, and puts it out to the lock box, where the payment is applied electronically to the CIS the next day. He stated that the only upgrade MIS will be doing this year will be upgrading the e-mail system from Exchange 2003 to Exchange 2010.

Mr. Ollila asked if there were any capital or time allocations in the FY12 budget to look at the data that can be collected by the new meters being installed.

Mr. Cameron responded that would be funded out of the Energy Conservation Budget. Mr. Uvanni added that the RLMD has an advantage regarding communication because of RMLD's fiber optic ring around the four towns. RMLD will not be dependent on a cellular carrier to obtain those reads.

Mr. Cameron introduced Mr. Sullivan (Engineering & Operations Manager), Mr. Price (Chief Engineer), Mr. D'Alleva (Technical Services Manager), and Mr. O'Connor (General Line Foreman). Mr. Sullivan noted that originally 16 projects were proposed and due to cost, seven were eliminated. He added that Mr. Price did the majority of the analysis of Projects 1 through 9. Mr. O'Connor, Mr. Price, and Mr. D'Alleva described the construction projects. A correction on Project 3 in the "Reason for Expenditure" was noted—the number of years in the second line should be changed from "70" to "45".

Mr. Sullivan noted that Projects 4, 5, 6, and 7 are part of "Smart Grid".

Discussion ensued.

Mr. Sullivan explained Projects 12, 13, 14, and updated the CAB on the progress of the GIS System prior to discussing FY12's proposed GIS Project #15. He stated that Project 15 is an integration project. He stated that discussions have taken place with vendors, consultants, the Town of Reading GIS Coordinator, and two other municipalities regarding how the applications are islanded (in house) and do not talk to one another. The intent of this project is to platform all of the software applications on top of GIS to enable communication between the applications.

Mr. Ollila asked if demand response would be an application related to this, and Mr. Cameron responded, "Yes."

Discussion ensued.

Mr. Price discussed Project 16 and noted that there are no capacitors requested this year, only transformers and voltage regulators.

Mr. D'Alleva explained Project 17A and stated that this is outside the meter replacement project.

Mr. Sullivan described Project 17B, and said that this is the second part of the meter replacement project that combines meter installation and fixed network installation to obtain the data remotely back to Ash Street.

Discussion ensued.

Mr. Ollila asked if there is time and effort allocated for calibration or verification that the data being read is actually what is going on at the house. Mr. Sullivan responded that it would be done under MIS testing.

Mr. Capobianco asked what questions are to be answered after looking at the data. Mr. Sullivan responded that the Department is looking to obtain the reads per homeowner, and then on a more frequent basis than once every 30 days. He added if the information can be read more often, the Department starts to

Citizens' Advisory Board Meeting Minutes April 14, 2011

understand where the usage is, which can be used for a Cost of Service Study, for locating tampering, and for power outages and power restoration

Mr. Capobianco asked what the expected volume of data to be stored is, and Mr. Sullivan responded that he did not know, and that MIS would have to decide how much can be stored, how much time can be devoted to looking at the data, and figure out how the data will be used. He expects it to be operational by FY13

Mr. Price explained Projects 22 and 23.

Mr. Sullivan noted that there would be one carryover project from FY11, Project 33.

Mr. Norton thanked the staff for its work in the budget.

6. Other Items for Discussion

Mr. Ollila asked what the Town Payment letters are. Mr. Cameron responded that the Reading Town Payment is based on a sum that the Board agreed to in 1997 and that sum is adjusted annually by the Boston-Nashua-Brockton CPI. He added that the letters go to the Town Payment Committee consisting of two Board members, two CAB members, and one Reading Selectman. He noted that the payment that goes to the four towns (as legislated) is an above the line expense, whereas, the Payment to the Town of Reading comes out of the 8% return, and is basically a return on investment.

Rotation Schedule for RMLD meetings: July - Mr. Carakatsane; August - Mr. Ollila or Mr. Capobianco; September – Mr. Hooper; October – Mr. Carakatsane; November – Mr. Ollila; December – Mr. Capobianco.

Next CAB Meeting - Tuesday, April 26, 2011 at 7:00 P.M. at the RMLD.

7. Executive Session

Mr. Norton made a motion at 8:08 P.M. seconded by Mr. Hooper to go into Executive Session based on Chapter 164§47D, exemption from public records and open meeting requirements in certain instances, to approve executive session minutes and return to Regular Session for the sole purpose of adjournment. Motion carried unanimously by a poll of the CAB: Mr. Ollila - Aye; Mr. Capobianco - Aye; Mr. Carakatsane – Aye; Mr. Norton – Aye; Mr. Hooper – Aye.

8. Adjournment

A motion was made at 8:13 P.M. by Mr. Norton and seconded by Mr. Hooper to adjourn the meeting. Motion carried unanimously 5:0:0.

	Respectfully submitted,		
	John Norton, Secretary		
/pmo	Minutes approved on:	_

CITIZENS' ADVISORY BOARD (CAB) **MEETING MINUTES** Regular Session

TIME:

7:00 P.M.

DATE:

Tuesday, April 26, 2011

PLACE:

Reading Municipal Light Department (RMLD) 230 Ash Street, Reading, MA Spurr/AV Room

PRESENT:

CAB: A. Carakatsane, Chairman, (Lynnfield), J. Norton, Secretary, (North Reading),

G. Hooper (Wilmington), T. Ollila (Wilmington), T. Capobianco (Reading)

RMLD Board: R. Soli, P. Pacino

RMLD Staff: V. Cameron, P. O'Leary, K. Sullivan, R. Fournier, J. Donahoe, Bill Seldon,

B. Antonio

1. Call Meeting to Order – A. Carakatsane, Chairman

Chairman Carakatsane called the meeting to order at 7:00 P.M.

2. Minutes of Meeting - January 19, 2011 - A. Carakasane

Mr. Norton made a motion seconded by Mr. Hooper to approve the January 19, 2011 minutes as written. Motion carried unanimously 5:0:0.

3. FY12 Operating Budget - V. Cameron, R. Fournier

Mr. Cameron introduced the staff present.

Mr. Fournier distributed his condensed (one page) summary of the Operating Budget and reiterated that it is not a line item budget. His summary outlines the total operating expenses, and then deducts the fixed costs and semi variable costs. He noted that two full tree crews are proposed for FY12, the head count will be at 76, and expected revenue projections are \$84.6 million. He also described the new format for the budget that no longer contains detail sheets, only Budget/Actual Comparison Summary sheets.

Each staff person present described his/her department's budget followed by questions from the CAB and responses from the staff.

Mr. Carakatsane asked if anything unusual was being projected for Outside Services, and Mr. Cameron replied, "No."

Mr. Ollila asked if any additional renewable projects are coming, and Mr. Seldon stated that the Energy Services Division will continue using its power supply strategy and continue to add renewable projects when the project fits into the strategy.

Discussion ensued.

Mr. Sullivan noted that the Meter Supervisor and a Sr. Technician retired in FY11, and an Operational Assistant in the Meter Department transferred to Materials Management, which reduces the labor amount.

Mr. Ollila referenced the Six Year Plan and the possibility of adding a substation in 2016.

Mr. Cameron stated that Ballardvale Street, an industrial area of Wilmington, could present a voltage problem in the future. He noted that Mr. Sullivan plans to have a study done, and Mr. Cameron thinks there may be a way to solve the problem more cost effectively such as looking at the size of the feeders and distribution generation.

Mr. Soli asked Mr. Fournier where the residential audits are in the budget, and Mr. Fournier responded that they are in Energy Services under Energy Conservation.

Citizens' Advisory Board Meeting Minutes April 26, 2011

Mr. Fournier noted a new position in the MIS budget, a GIS Coordinator.

Mr. Carakatsane questioned the unfunded pension liability, and suggested the possibility of budgeting more for the pension contribution.

Mr. Cameron explained the pension trust and the increase in the expense. He stated that \$1.1 to \$1.4 million per year should be budgeted for the expense.

Mr. Norton thanked the staff who put the operating budget together. He liked the new format, and expressed that it was much easier to read and to follow.

Mr. Norton made the following motion seconded by Mr. Hooper:

MOVE that the CAB recommend to the RMLD Board of Commissioners the acceptance of the first draft of the FY12 Operating Budget based on a Net Income Amount of \$4,366,041 as presented. Any significant changes are to be submitted to the CAB for review and recommendation. Motion carried unanimously 5:0:0.

4. FY12 Capital Budget - V. Cameron

Mr. Norton made the following motion seconded by Mr. Hooper:

MOVE that the CAB recommend to the RMLD Board of Commissioners the first draft of the FY12 Capital Budget in the amount of \$5,910,048 dated March 31, 2011 as presented. Any significant changes are to be submitted to the CAB for review and recommendation. Motion carried unanimously 5:0:0.

5. Other Items for Discussion

None

6. Schedule Next Meeting

May 18, 2010, 7:00 P.M., at RMLD

7. Executive Session

Deferred to next meeting.

8. Adjournment

A motion was made at 8:15 P.M. by Mr. Norton and seconded by Mr. Hooper to adjourn the meeting. Motion carried unanimously 5:0:0.

	Respectfully submitted,	
/pmo	John Norton, Secretary Minutes approved on:	

ITEM 3.

Energy Services Update a. Sustainable Energy Policy

Sustainable Energy Policy

General Manager Per Board Vote
Chairman/Date

I. PURPOSE

- A. To develop a practical approach to addressing the need for sustainable energy alternatives that are energy efficient while simultaneously balancing power supply costs.
- To establish general guidelines that promote practical, cost efficient sustainable energy alternatives.

II. RESPONSIBILITIES

- A. RMLD Commission
 - 1. Responsible for approving this policy.
 - 2. Representation for the Board of Commissioners is governed by RMLD Policy #19 as revised.
- B. RMLD Power & Rate Committee
 - Review all RMLD recommended sustainable energy alternatives and ensure that they meet the policy guidelines.
- C. General Manager
 - 1. Responsible for implementing this policy.
- D. Energy Services Division
 - Responsible for assisting the General Manager in implementing this policy and associated activities.
 - 2. Responsible for presenting the General Manager with projects that staff has determined meet the criteria of this policy.
 - Responsible for evaluating and overseeing the projects necessary to achieve the goals of this policy.

III. POLICY ELEMENTS

- A. The RMLD is striving to develop a practical approach to addressing the need for sustainable energy alternatives while simultaneously balancing power supply costs. Sustainable energy meets the needs of the present without compromising future generations. Sustainable energy sources can include, but are not limited to hydro, solar, wind, geothermal and biomass-energy.
- B. The RMLD will strive to achieve a power supply portfolio with a sustainable energy mix of 10 percent by 2013. The RMLD will review the power supply portfolio from time to time with the goal of increasing the amount of sustainable energy in the portfolio to 12 percent by 2015 and 1 percent annually thereafter until the department has reached a cap in the portfolio of 25 percent sustainable energy. Every fifth year will be considered a milestone year in which the portfolio will be reviewed to determine the need for further sustainable energy purchases.
- C. The RMLD will analyze sustainable power supply projects with the intent of not exceeding the average power supply cost by more than 20 percent. Only projects that meet this criterion initially will be brought to the General Manager for further review.
 - D. Sustainable energy projects shall provide all project attributes including, but not limited to capacity, energy and Renewable Energy Certificates(RECs) Solar Project RECs will be excluded from this requirement.
 - E. In the interest of providing RMLD ratepayers with sustainable energy that is cost effective the Department shall have the ability to market all or a portion of the RECs from any given potential project until an RPS is applicable to the RMLD.
 - F. The RMLD will strive to diversify sustainable energy projects by type, size, and location and will also include environmental impacts in the evaluation process.

Sustainable Energy Policy Outline

Proposed Energy Services Policy Outline

Vision Statement

- energy alternatives that are also energy efficient while simultaneously balancing addressing the need for sustainable To develop a practical approach to power supply costs.
- generations Could include Hydro, Solar, Wind, Geothermal, Bio-energy, Tidal, etc. Sustainable Energy – Meets needs of the present without compromising future

Goal and Objective

Board approved Sustainable Energy policy

Policy approval by end of 2011

Set Goal for Sustainable Energy Today's Situation – No Specific

- Striving for direction to implement Sustainable Energy policy.
- What qualifies? (See sustainable Energy Definition)
- How much? (percentage of total portfolio)

Recommendation

- the need for sustainable energy from Approved policy should acknowledge clearly defined sources in specific quantities in supply portfolio.
- Policy should be cognizant of price. (if its too expensive it doesn't get in mix.

Recommendation

- energy efficiency needs as defined by current Must include projects which address RMLD's
 - sustainable projects at a predetermined price Develop formula which systematically adds and amount threshold. (add to annual laddering and layering approach) ESD recommendations.

ITEM 3.

Energy Services Update

b. Environmental Policy

The Reading Municipal Light Department is committed to responsible energy management and will practice energy efficiency (EE) throughout all our premises. The RMLD will focus on achieving the objectives of this policy through implementation of energy management projects that minimize the economic burden on the organization through the adoption of efficient environmental and financial management strategies.

This policy signifies the RMLD's commitment to control the level of energy consumed in the provision and delivery of its services by realizing ongoing savings in agency energy operating budgets and to quantify and publicly report on those savings and the consequent greenhouse gas emissions

The RMLD's long term objectives are:

- To reduce dependence on fossil fuels by at least 20% by January 1, 2014 through energy conservation and efficiency practices. Establish the last 12 months as the baseline year
- To reduce pollution, particularly CO2 emissions, by reducing energy from less greenhouse intensive sources.

Detailed goals for 3 year plan:

The energy plan of the RMLD will be updated yearly as changes to ASHRAE and state guidelines changes. Quarterly the RMLD Board of Directors will be updated to the energy use of the RMLD properties. Monthly the energy uses of the RMLD will be updated in the EPA's ENERGY STAR Portfolio manager.

The basis of the RMLD's performance guidelines come from the United States Green Building Council (USGBC). The RMLD will reference the Leadership in Energy and Environmental Design (LEED) for its base practices and future planning.

- An Energy Management Team will be established at the RMLD to identify and drive energy efficiency initiatives and to provide an integrated organization-wide response to energy management. The team will be responsible for identification and reporting of energy efficiency practices and projects.
- Specific items are key items crucial to the success of the energy plan. The following are a list of the top priorities:
 - o Create an Energy Efficiency team
 - Assign team members as required to meet Goals.
 - Development an internal communication strategy to raise staff awareness of Energy Efficiency.
 - o Establishing an energy accounting system that allows for collection, monitoring and reporting of all data on energy consumption, energy costs, and energy savings.
 - o Immediately implement no cost / low cost ECM's. (Energy Conservation Measures)
 - o Immediately Benchmark individual buildings and establish a three year annual energy reduction goal.

- o Implement retrocommissioning or continuous commissioning in year one based on benchmarking results
- Conduct ASHRAE Level II energy audits on all facilities. (Includes detailed energy calculations and financial analysis of proposed energy efficiency measures)
- o Fund the Energy Efficiency program with at least the savings from the three year savings goals.
- Develop an energy efficient purchasing policy for office equipment, office accommodation and for energy sources
- Select additional goals for year 2 and 3, Energy Star and/or LEED
 Certification
- Determine and budget cost and timeframe to accomplish ECM's and energy efficient upgrades
- o Improve energy efficiency continuously by implementing effective energy management programs that support all operations and customer satisfaction while providing a safe and comfortable work environment
- o Implement employee programs to save energy at work and at home

The RMLD will use the following as specific goals for the next 3 years:

1. Sustainable Site

- a. Reduce harmful chemical use, energy waste, water waste, air pollution, solid waste and/or chemical runoff (gasoline, oil, antifreeze, etc.)
- b. Use least toxic chemical pesticides for all pest and landscape control.
- c. Use local horticultural extension services or native plant societies to selct and grow indigenous plants.
- d. Collect stormwater for nonpotable uses such as landscape irrigation, toilet and urinal flushing, and custodial uses.
- e. Partially or fully shield all external light fixtures that use over 50 watts to minimize light to the night sky.

2. Water Efficiency

- a. Reduce overall water use by 160% compared to calendar year 2011.
- b. Replace all faucets and toilet with low-flow and automatic flush technology.
- c. Purchase only water conservation indoor plumbing fixtures.
- d. Monitor all water use for monthly analysis using ENERGY STAR as a baseline.
- e. Reduce potable water consumption for cooling tower equipment through effective water management and/or use of nonpotable makeup water.

3. Energy and Atmosphere

- a. Quarterly inspection of all CFC and HCFC refrigerant using equipment.
- b. Specify only non-CFC based refrigerants for all future purchases.
- c. Maintain a minimum of 65 on the EPA's ENERGY STAR's Portfolio Manager.
- d. Implement low and no cost operational improvements that will immediately enhance building performance.

e. 25% of the RMLD's electricity will come from renewable sources.

4. Materials and Resources

- a. Evaluate and purchase items that are more environmentally friendly.
- b. Add bins for recycling paper, plastic, and metal products.
- c. Purchase products meeting LEED and/or ENERGY STAR standards.
- d. Dispose of all CFL's based on MassDEP regulations and guidelines.
- e. If a CFL breaks on a floor or carpet, follow the MassDEP <u>Guidance for Cleaning Up Broken Compact Fluorescent Light Bulbs (CFLs)</u>.

5. Indoor Environmental Quality

- a. Utilize EPA's Guideline for HVAC System Maintenance.
- b. Prohibit smoking in the building and within 25 feet of entries, outdoor intakes, and operable windows.
- c. Adhere to Green Seal practices for all cleaning guidelines.
- d. Purchase cleaning products meeting Green Seal standards (GS-37 or greater) products.
- e. Utilize CO2 sensors to optimize outdoor air management based on the building audit and ASHRAE 62.1 standards.
- f. Utilize MERV 13 or greater filters.
- g. Incorporate a semi-annual survey to gauge the acceptable levels of occupant comfort.
- h. Lighting controls will be installed on 50% of the occupants including motions sensors, on-off switches,
- i. Meet ASHRAE 55-2004, Thermal Comfort Conditions for Human Occupancy.
- j. Cleaning personnel must meet Green Seal cleaning standards.

6. Innovation in Operations

a. Provide yearly updates to potential technologies that could best benefit the operation of RMLD properties. Cost is not a factor in the potential technologies presented.

7. Regional Priority

a. RMLD is committed to local community growth and sustainable living. Delivery of food services, cleaning outsourcing, grounds keeping, and other services outsourced and needed by employees with be considered by both cost and local to RMLD service territories.

ITEM 3.

Energy Services Update

c. Net Metering Rate

Residential

Residential Customer Owned Renewable Generation

Available in:

Reading, Lynnfield Center, North Reading, and Wilmington

Applicable to:

Individual residential customers for all domestic uses. This rate and the Terms and Conditions contained therein govern certain renewable generation facilities located on a residential customer's premise, where the facility is owned or leased by the residential customer, located in the customer premise and used solely for the purpose of the customer's own consumption.

Rates and Billing:

During a billing period, if the customer uses more electricity than its premise feeds back into RMLD's system, then the customer will be billed based on the rate applicable to that customer's class of service under the applicable RMLD tariff. If, during a billing period, the customer's facility feeds back on to the RMLD system more electricity than is supplied by RMLD, the customer shall be billed the minimum charge applicable to customer's class of service and shall be credited for the excess electricity in kWh generated and fed into RMLD's system, however, RMLD reserves the right to discontinue credit for such excess to the extent that it deems unnecessary to meet the needs of RMLD's customers, upon thirty (30) days' notice to customer. The rate credited to the customer for excess energy fed into RMLD's distribution system shall be equal to the then-applicable RMLD's Monthly Fuel Charge, which may be adjusted by the Standard Fuel Charge Clause, for the billing period in which the credit was generated.

RMLD may impose additional Terms and Conditions, as it deems necessary, in its sole discretion, for the protection of its distribution system, service territory, or its customers.

General Terms:

Service hereunder is subject to the General Terms and Conditions which are incorporated herein and are a part of this rate.

Rate Filed:

Effective: On Billing on or After

Filed by: Vincent F. Cameron Jr, General Manager

Town of Reading, Massachusetts Municipal Light Department

RMLD Terms and Conditions for Customer Owned Generation Less Than 10 kW

This tariff and the terms and conditions contained herein govern certain renewable generation facilities located on the customer's premises, where such facilities are owned or leased by the customer and used solely for the purpose of the customer's own consumption.

Availability: Net metering is available to generation facilities owned or leased by a customer, for the purpose of offsetting all or part of the customer's own electric power requirements, and capable of producing no more than 10 kW from solar, wind, fuel cell or hydroelectric sources ("Facility"). The use of a Facility for providing service to a third party is strictly prohibited. Under no circumstance shall output from the Facility be provided or credited to any third party. The availability of net metering to a customer that owns or leases a Facility ("Customer") is subject to the terms and conditions contained in this tariff. RMLD's General Terms and Conditions shall also apply to service under this tariff and Terms and Conditions, where not inconsistent with any specific provision hereof. In its sole discretion, RMLD may limit the cumulative generating capacity of all Facilities in its service territory.

- 1. Construction of the Facility. The Customer may proceed to construct the Facility once the RMLD has received the completed Attachment 1 Application for Customer Owned Generation Under 10 kW and said application has been approved by the RMLD. The RMLD will not approve any such application if it determines that the Facility will have an adverse impact on RMLD's system. The Facility shall be designed, constructed and operated in a manner that causes it to meet or exceed all applicable safety and electrical standards, including but not limited to the Massachusetts Building Code, the Massachusetts Department of Public Utilities' regulations, the National Electric Code, the National Electrical Safety Code, IEEE, UL and RMLD's General Terms and Conditions for Service. The Customer is responsible for all permits and regulatory approvals necessary for construction of the Facility.
- 2. Interconnection and Operation. The Customer may operate Facility and interconnect with the RMLD's system only after the following has occurred:
- 2.1 Municipal Inspection. Upon completing construction, the Interconnecting Customer will cause the Facility to be inspected or otherwise certified and/or approved by the local wiring inspector.
- 2.2 Certificate of Completion. The Customer shall return the Certificate of Completion appearing as Attachment 2 Certification of Completion for Customer Owned Generation Under 10kW, to the RMLD, P.O. Box 150, Reading, MA 01867-250.
- 2.3 RMLD Right to Inspection. Within ten (10) business days after the receipt of the Certificate of Completion, the RMLD shall, upon reasonable notice, and at a mutually convenient time, conduct an inspection of the Facility to ensure that all equipment has been properly installed, and that all electric connections have been made in accordance with the RMLD's requirements including these Terms and Conditions and RMLD's General Terms and Conditions. The RMLD has the right to disconnect the Facility in the event of improper installation or failure to return the Certificate of Completion to the RMLD.
- 2.4 Interconnection Metering/Wiring. The Customer shall furnish and have installed, if not already in place, the necessary meter socket and wiring in accordance with all applicable safety and electrical standards. The Customer shall have installed a second meter socket and necessary wiring between the output of the Facility and the Customer's main electrical service. The meter socket shall be located outside of a location approved by RMLD. The second meter socket shall be supplied by the RMLD at the Customer's expense. The Customer shall supply a safety disconnect switch adjacent to RMLD's metering equipment that is accessible by RMLD at all times.
- 2.5 Payment of Any Upgrades. The Customer shall be responsible for paying RMLD for any upgrades to RMLD's system necessitated by the connection of the Facility to RMLD's system. The Customer is also responsible for equipment expenses including meters necessary to accommodate the Facility as set forth herein.
- 3. Safe Operation and Maintenance. The Customer shall be solely responsible for constructing, operating, maintaining, and repairing the Facility in a safe manner.

The RMLD may temporarily disconnect the Facility to facilitate planned or emergency RMLD work. In addition, RMLD may disconnect the Facility from its system at any time that RMLD determines, in its sole discretion, that the safety and reliability of RMLD's system may be compromised by the operation of the Facility. In the event that Facility damages RMLD's system, the Customer shall be solely responsible for all costs associated with the repair and/or replacement of damaged portion of RMLD's system and/or equipment.

4. Metering and Billing. All Facilities constructed, installed, inspected, operated and maintained in accordance with these Terms and Conditions qualify for net metering as follows:

Rate Filed: Effective: Filed by: 1209496_1

Town of Reading, Massachusetts Municipal Light Department

- 4.1 RMLD Installs Net Meter. RMLD shall furnish and install a meter capable of net metering within ten (10) business days after the inspection of the Facility set forth in Section 2.3, above, if such meter is not in place, at Customer's expense.
- 4.2 RMLD Installs Check Meter. The RMLD will install a second meter to record the usage of the Customer generated energy. There will be no charge to the Customer associated with this meter.
- 5. Limitation of Liability, Indemnification and Insurance. RMLD shall not be liable to the Customer or any other person for any loss, injury, damage, casualty, fees or penalties, asserted on the basis of any theory, arising from, related to or caused by the construction, installation, operation,, maintenance or repair of the Facility, and associated equipment and wiring, except to the extent of its own gross negligence or willful misconduct, but only to the extent permitted by law. Neither by inspection nor non-rejection nor in any other way does RMLD give any warranty, expressed or implied as to the adequacy, safety or other characteristics of any equipment, wiring or devices, installed on the Customer's premises, including the Facility. The Customer shall indemnify and hold harmless RMLD, its board members, managers, employees, agents, consultants, attorneys and assigns from and against any and all losses, claims, damages, costs, demands, fines, judgments, penalties, payments and liabilities, together with any costs and expenses (including attorneys' fees) incurred in connection with, resulting from, relating to or arising out of the construction, operation, maintenance and repair of the Facility, including the Customer's failure to comply with these Terms and Conditions or any abnormality or failure in the operation of the Facility, or any adverse impact to RMLD's system or its other customers. The Customer shall maintain sufficient insurance to cover any damage to RMLD's system caused by the construction, operation, maintenance and repair the Facility and shall name RMLD as additional insured. The Customer shall provide RMLD with proof of satisfactory insurance upon request by RMLD.
- 6. Termination. Service may be terminated under the following conditions.
- 6.1 By Interconnecting Customer. The Customer may terminate service under this tariff by providing written notice to RMLD.
- 6.2 By RMLD. The RMLD may terminate service under this tariff (1) if the Facility fails to operate for any consecutive twelve month period or (2) in the event that the Facility impairs the operation of RMLD's electric distribution system or service to other customers or materially impairs the local circuit and the Customer does not cure the impairment at its sole expense.
- 7. Assignment/Transfer of Ownership of the Facility. In the event that a transfer of ownership of the Facility to a new Customer occurs, the new Customer must file Attachment 1 - Application for Customer Owned Generation Under 10KW and the application has been approved by RMLD.
- 8. Rates and Billing. During a billing period, if the Customer uses more electricity than its Facility feeds back into RMLD's system, then the Customer will be billed based on the rate applicable to that Customer's class of service under the applicable RMLD tariff. If, during a billing period, the Customer's Facility feeds back on to the RMLD system more electricity than is supplied by RMLD, the Customer shall be credited for the excess electricity in kWh generated and fed into RMLD's system however, RMLD reserves the right to discontinue credit for such excess to the extent that it deems unnecessary to meet the needs of RMLD's customers, upon thirty (30) days' notice to Customer. The rate credited to the Customer for excess energy fed into RMLD's distribution system shall be equal to the then-applicable RMLD's Monthly Fuel Charge, which may be adjusted by the Standard Fuel Adjustment Clause, for the billing period in which the credit was generated.

Commercial/Industrial Customer Owned Renewable Generation

Available in:

Reading, Lynnfield Center, North Reading, and Wilmington

Applicable to:

Individual commercial/industrial customers for all commercial uses. This rate and the Terms and Conditions contained therein govern certain renewable generation facilities located on a commercial/industrial customer's premise, where the facility is owned or leased by the commercial/industrial customer, located in the customer premise and used solely for the purpose of the customer's own consumption.

Rates and Billing:

During a billing period, if the customer uses more electricity than its facility feeds back into RMLD's system, then the customer will be billed based on the rate applicable to that customer's class of service under the applicable RMLD tariff. If, during a billing period, the customer's facility feeds back on to the RMLD system more electricity than is supplied by RMLD, the customer shall be billed the minimum charge applicable to customer's class of service and shall be credited for the excess electricity in kWh generated and fed into RMLD's system up to ___ % of the customer's historic peak demand; however, RMLD reserves the right to discontinue credit for such excess to the extent that it deems unnecessary to meet the needs of RMLD's customers, upon thirty (30) days' notice to customer. The rate credited to the customer for excess energy fed into RMLD's distribution system shall be equal to the then-applicable RMLD's Monthly Fuel Charge, which may be adjusted by the Standard Fuel Charge Clause, for the billing period in which the credit was generated.

RMLD may impose additional Terms and Conditions, as it deems necessary, in its sole discretion, for the protection of its distribution system, service territory, or its customers.

General Terms:

Service hereunder is subject to the General Terms and Conditions which are incorporated herein and are a part of this rate.

RMLD Terms and Conditions for Commercial Customer Owned Generation

This tariff and the terms and conditions contained herein govern certain renewable generation facilities located on a commercial customer's (i.e., a customer currently receiving service from RMLD pursuant to one of RMLD's commercial and industrial tariffs) premises, where such facilities are owned or leased by the commercial customer, located on the customer's premises and used solely for the purpose of the customer's own consumption.

Availability: Net metering is available to generation facilities owned or leased by a commercial customer, located on the commercial customer's property where such customer currently receives service from RMLD, for the purpose of offsetting all or part of that customer's own electric power requirements from solar, wind, fuel cell or hydroelectric sources ("Facility"). The use of a Facility for providing service to a third party is strictly prohibited. Under no circumstance shall output from the Facility be provided or credited to any third party. The availability of net metering to a commercial customer that owns or leases a Facility ("Customer") is subject to the terms and conditions contained in this tariff. RMLD's General Terms and Conditions shall also apply to service under this tariff and Terms and Conditions, where not inconsistent with any specific provision hereof. In its sole discretion, RMLD may limit the cumulative generating capacity of all Facilities in its service territory.

- 1. Construction of the Facility. The Customer may proceed to construct the Facility once the RMLD has received the completed Attachment 1 - Application for Commercial Customer Owned Generation and said application has been approved by the RMLD. The Application shall be accompanied by a one-line diagram of the proposed Facility, and the application fee as determined by RMLD. The RMLD will not approve any such application if it determines that the Facility will have an adverse impact on RMLD's system or does not or will not comply with any of RMLD's Terms and Conditions. The Facility system capacity is subject to RMLD inspection and approval. The Facility shall be designed, constructed and operated in a manner that causes it to meet or exceed all applicable safety and electrical standards, including but not limited to the Massachusetts Building Code, the Massachusetts Department of Public Utilities' regulations, the National Electric Code, the National Electrical Safety Code, IEEE, UL and RMLD's General Terms and Conditions for Service. The Customer is responsible for all permits and regulatory approvals necessary for construction of the Facility.
- 2. Interconnection and Operation. The Customer may operate Facility and interconnect with the RMLD's system only after the following has occurred:

Municipal Inspection. Upon completing construction, the Interconnecting Customer will cause the Facility to be inspected or otherwise certified and/or approved by the local wiring inspector.

Certificate of Completion. The Customer shall return the Certificate of Completion appearing as Attachment 2 - Certification of Completion for Commercial Customer Owned Generation, to the RMLD, P.O. Box

150, Reading, MA 01867-250.

RMLD Right to Inspection. Within ten (10) business days after the receipt of the Certificate of Completion, the RMLD shall, upon reasonable notice, and at a mutually convenient time, conduct an inspection of the Facility to ensure that all equipment has been properly installed, and that all electric connections have been made in accordance with the RMLD's requirements including these Terms and Conditions and RMLD's General Terms and Conditions. The RMLD has the right to disconnect the Facility in the event of improper installation or failure to return the Certificate of Completion to the RMLD.

Interconnection Metering/Wiring. The Customer shall furnish and have installed, if not already in place, the necessary meter socket and wiring in accordance with all applicable safety and electrical standards. The Customer shall have installed a second meter socket and necessary wiring between the output of the Facility and the Customer's main electrical service. The meter socket shall be located outside of a location approved by RMLD. The second meter socket shall be supplied by the RMLD at the Customer's expense. The Customer shall supply a safety disconnect switch adjacent to RMLD's metering equipment that is accessible by RMLD at all times.

Payment of Any Upgrades. The Customer shall be responsible for paying RMLD for any upgrades to RMLD's system necessitated by the connection of the Facility to RMLD's system. The Customer is also responsible

for equipment expenses including net meters necessary to accommodate the Facility as set forth herein.

3. Safe Operation and Maintenance. The Customer shall be solely responsible for constructing, operating, maintaining, and repairing the Facility in a safe manner.

The RMLD may temporarily disconnect the Facility to facilitate planned or emergency RMLD work. In addition, RMLD may disconnect the Facility from its system at any time that RMLD determines, in its sole discretion, that the safety and reliability of RMLD's system may be compromised by the operation of the Facility. In the event that

Rate Filed: Effective: Filed by:

Town of Reading, Massachusetts Municipal Light Department

Facility damages RMLD's system, the Customer shall be solely responsible for all costs associated with the repair and/or replacement of damaged portion of RMLD's system and/or equipment.

4. Metering and Billing. All Facilities constructed, installed, inspected, operated and maintained in accordance with these Terms and Conditions qualify for net metering as follows:

4.1 RMLD Installs Net Meter. RMLD shall furnish and install a meter capable of net metering within ten (10) business days after the inspection of the Facility set forth in Section 2.3, above, if such meter is not in place, at Customer's expense.

5. Limitation of Liability, Indemnification and Insurance. RMLD shall not be liable to the Customer or any other person for any loss, injury, damage, casualty, fees or penalties, asserted on the basis of any theory, arising from, related to or caused by the construction, installation, operation,, maintenance or repair of the Facility, and associated equipment and wiring, except to the extent of its own gross negligence or willful misconduct, but only to the extent permitted by law. Neither by inspection nor non-rejection nor in any other way does RMLD give any warranty, expressed or implied as to the adequacy, safety or other characteristics of any equipment, wiring or devices, installed on the Customer's premises, including the Facility. The Customer shall indemnify and hold harmless RMLD, its board members, managers, employees, agents, consultants, attorneys and assigns from and against any and all losses, claims, damages, costs, demands, fines, judgments, penalties, payments and liabilities, together with any costs and expenses (including attorneys' fees) incurred in connection with, resulting from, relating to or arising out of the construction, operation, maintenance and repair of the Facility, including the Customer's failure to comply with these Terms and Conditions or any abnormality or failure in the operation of the Facility, or any adverse impact to RMLD's system or its other customers. The Customer shall maintain sufficient insurance to cover any damage to RMLD's system caused by the construction, operation, maintenance and repair the Facility and shall name RMLD as additional insured. The Customer shall provide RMLD with proof of satisfactory insurance upon request by RMLD.

6. Termination. Service may be terminated under the following conditions.

- **6.1 By Interconnecting Customer.** The Customer may terminate service under this tariff by providing written notice to RMLD.
- **6.2 By RMLD.** The RMLD may terminate service under this tariff (1) if the Facility fails to operate for any consecutive twelve month period or (2) in the event that the Facility impairs the operation of RMLD's electric distribution system or service to other customers or materially impairs the local circuit and the Customer does not cure the impairment at its sole expense.
- 7. Assignment/Transfer of Ownership of the Facility. In the event that a transfer of ownership of the Facility to a new Customer occurs, the new Customer must file Attachment 1 Application for Commercial Customer Owned Generation and the application has been approved by RMLD.
- 8. Rates and Billing. During a billing period, if the Customer uses more electricity than its Facility feeds back into RMLD's system, then the Customer will be billed based on the rate applicable to that Customer's class of service under the applicable RMLD tariff. If, during a billing period, the Customer's Facility feeds back on to the RMLD system more electricity than is supplied by RMLD, the Customer shall be billed the minimum charge applicable to Customer's class of service and shall be credited for the excess electricity in kWh generated and fed into RMLD's system; however, RMLD reserves the right to discontinue credit for such excess to the extent that it deems unnecessary to meet the needs of RMLD's customers, upon thirty (30) days' notice to Customer. The rate credited to the Customer for excess energy fed into RMLD's distribution system shall be equal to the then-applicable RMLD's Monthly Fuel Charge, which may be adjusted by the Standard Fuel Adjustment Clause, for the billing period in which the credit was generated.

RMLD may impose additional Terms and Conditions as it deems necessary, in its sole discretion, for the protection of its distribution system, service territory, or its customers.

INDEPENDENT AUDITORS' REPORT

To the Municipal Light Board Town of Reading Municipal Light Department Reading, Massachusetts

We have audited the accompanying financial statements of the business-type activities, and the aggregate remaining fund information of the Town of Reading Municipal Light Department ("the Department") (an enterprise fund of the Town of Reading), as of and for the year ended June 30, 2011 which collectively comprise the Department's basic financial statements as listed in the table of contents. These financial statements are the responsibility of the Department's management. Our responsibility is to express an opinion on these financial statements based on our audit.

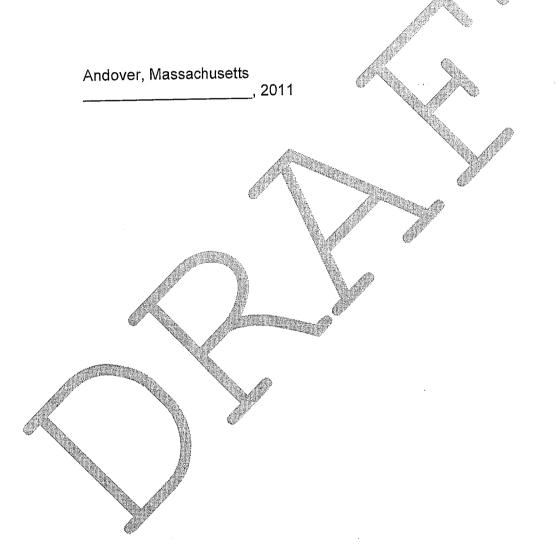

We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe our audit provides a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of the business-type activities, and the aggregate remaining fund information of the Town of Reading Municipal Light Department as of June 30, 2011, and the respective changes in financial position and cash flows, where applicable thereof, for the year then ended in conformity with accounting principles generally accepted in the United States of America.

The management's discussion and analysis, appearing on the following pages, and the supplementary information, appearing on page 29, are not a required part of the basic financial statements but are supplementary information required by accounting principles generally accepted in the United States of America. We have applied certain limited procedures, which consisted principally of inquiries of management regarding the methods of measurement and presentation of the

required supplementary information. However, we did not audit the information and express no opinion on it.

The financial statements include certain prior-year summarized comparative information. Such information does not include sufficient detail to constitute a presentation in conformity with generally accepted accounting principles. Accordingly, such information should be read in conjunction with the Department's financial statements for the year ended June 30, 2010, from which the summarized information was derived.

MANAGEMENT'S DISCUSSION AND ANALYSIS

Within this section of the Town of Reading Municipal Light Department's ("the Department") annual financial report, management provides a narrative discussion and analysis of the financial activities for the year ended June 30, 2014. The Department's performance is discussed and analyzed within the context of the accompanying financial statements and disclosures following this section.

A. OVERVIEW OF THE FINANCIAL STATEMENTS

The basic financial statements include (1) the statements of net assets, (2) the statements of revenues, expenses and changes in net assets, (3) the statements of cash flows, and (4) notes to the financial statements.

The Statements of Net Assets is designed to indicate our financial position as of a specific point in time. At June 30, 2011, it shows our net worth of \$ 93,603,582 which is comprised of \$ 67,560,510 invested in capital assets, \$ 4,265,768 restricted for depreciation fund, \$ 1,169,499 restricted for other post-employment benefits trust and \$ 20,607,805 unrestricted.

The Statements of Revenues, Expenses and Changes in Net Assets summarize our operating results and reveals how much, if any, of a profit was earned for the year. As discussed in more detail below, our net profit for the year ended June 30, 2011 was \$ 2,783,718

The Statements of Cash Flows provides information about cash receipts, cash payments, investing, and financing activities during the accounting period. A review of our Statements of Cash Flows indicates that cash receipts from operating activities adequately covered our operating expenses in fiscal year 2011.

The following is a summary of the Department's financial data for the current and prior fiscal years.

Summary of Net Assets

		<u> 2011</u>	<u>2010</u>

THE THE PERSON NAMED IN TH			

B. FINANCIAL HIGHLIGHTS

Electric sales (net of discounts) were \$87,511,283 in 2011, an increase of 8.2% from the prior year. Kilowatt hours sold increased by 3.6% to 709,213,661 in 2011, compared to 684,390,839 in 2010. In 2011, ratepayers were charged \$729,113 in fuel charge adjustments, compared to charges of \$586,718 in 2010. In 2011, ratepayers were charged purchase power adjustments of \$1,055,105 compared to \$5,063,829 in 2010.

Operating expenses were \$ 84,943,672 in 2011, an overall increase of 2.1% from 2010. The largest portion of this total, \$ 66,822,547 was for purchase power expenses. Other operating expenses included \$ 11,951,911 for general operating and maintenance costs, and \$ 1,386,395 in unanticipated costs for

hazardous waste mitigation measures associated with the GAW Substation upgrade project. In addition, the Department incurred costs of \$ 1,330,070 for voluntary payments to Towns, and depreciation expense of \$ 3,452,749. In fiscal year 2011, the depreciation rate was 3.0%.

In fiscal year 2011, the Department contributed \$ 1,000,000 to the Reading Municipal Light Department Employees' Pension Trust (the "Trust"). In addition, the Trust contributed \$ 1,278,695 to the Town of Reading Contributory Retirement System on behalf of the Department's employees.

In fiscal year 2010, the Department's Board of Commissioners voted to accept the provisions of Massachusetts General Law Chapter 32B §20, to create an Other Post Employment Benefits Liability Trust Fund as a mechanism to set aside monies to fund its other postemployment benefits (OPEB) liability. In fiscal year 2011, the department contributed \$1,165,800 to this fund, which was equal to its actuarially determined OPEB liability at June 30, 2011. These contributions, along with accumulated investment earnings, are included in the Department's restricted cash and investments balance at June 30, 2011. Additional information on the Department's OPEB liability can be found in the Note 15 on pages 20-23 of these financial statements.

C. CAPITAL ASSET AND DEBT ADMINISTRATION

Capital assets. Total investment in land at year end amounted to \$ 1,265,842; there was no change from the prior year. Total investment in depreciable capital assets at year end amounted to \$ 66,294,667 (net of accumulated depreciation), an increase of \$ 679,010 from the prior year. This investment in depreciable capital assets includes structures and improvements, equipment and furnishings, and infrastructure assets.

REQUESTS FOR INFORMATION

This financial report is designed to provide a general overview of the Reading Municipal Light Department's finances for all those with an interest in the government's finances. Questions concerning any of the information provided in this report or requests for additional financial information should be addressed to:

Town of Reading, Massachusetts Municipal Light Department Notes to the Financial Statements

1. Summary of Significant Accounting Policies

The significant accounting policies of the Town of Reading Municipal Light Department ("the Department") (an enterprise fund of the Town of Reading) are as follows:

- A. <u>Business Activity</u> The Department purchases electricity which it distributes to consumers within the towns of Reading, North Reading, Wilmington, and Lynnfield.
- B. Regulation and Basis of Accounting Under Massachusetts General Laws, the Department's electric rates are set by the Municipal Light Board. Electric rates, excluding the fuel charge, cannot be changed more often than once every three months. Rate schedules are filed with the Massachusetts Department of Public Utilities (DPU). While the DPU exercises general supervisory authority over the Department, the Department's rates are not subject to DPU approval. The Department's policy is to prepare its financial statements in conformity with generally accepted accounting principles.

Proprietary funds distinguish operating revenues and expenses from non-operating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenues of the enterprise fund are charges to customers for sales and services. Operating expenses for enterprise funds include the cost of sales and services, administrative expenses and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses.

Private-sector standards of accounting and financial reporting issued prior to December 1, 1989 generally are followed in the proprietary fund financial statements to the extent that those standards do not conflict with or contradict guidance of the Governmental Accounting Standards Board. Governments also have the option of following subsequent private-sector guidance for their enterprise funds, subject to this same limitation. The Department has elected not to follow subsequent private-sector guidance.

C. <u>Concentrations</u> - The Department operates within the electric utility industry which has undergone significant restructuring and deregulation. Legislation was enacted by the Commonwealth of Massachusetts in 1998 which changed the electric industry. The law introduced competition and pro-

vided consumers with choices while assuring continued reliable service. Municipal utilities are not currently subject to this legislation.

D. Retirement Trust - The Reading Municipal Light Department Employees' Pension Trust (the "Trust") was established on December 30, 1966, by the Town of Reading's Municipal Light Board pursuant to Chapter 164 of the General Laws of the Commonwealth of Massachusetts.

The Trust constitutes the principal instrument of a plan established by the Municipal Light Board for the purpose of funding the Department's annual required contribution to the Town of Reading Contributory Retirement System (the System), a cost sharing, multi-employer public employee retirement system.

- E. Revenues Revenues are based on rates established by the Department and filed with the DPU. Revenues from sales of electricity are recorded on the basis of bills rendered from monthly meter readings taken on a cycle basis and are stated net of discounts. Recognition is given to the amount of sales to customers which are unbilled at the end of the fiscal period.
- F. Cash and Short-term Investments For the purposes of the Statement of Cash Flows, the Department considers both restricted and unrestricted cash on deposit with the Town Treasurer to be cash or short-term investments. For purpose of the Statement of Net Assets, the proprietary funds consider investments with original maturities of three months or less to be short-term investments.
- G Investments State and local statutes place certain limitations on the nature of deposits and investments available. Deposits in any financial institution may not exceed certain levels within the financial institution. Non-fiduciary fund investments can be made in securities issued or unconditionally guaranteed by the U.S. Government or agencies that have a maturity of one year or less from the date of purchase and repurchase agreements guaranteed by such securities with maturity dates of no more than 90 days from date of purchase.

Investments for the Department and the Trust consist of U.S. government bonds that are being held to maturity. Investments are carried at cost.

- H. Inventory Inventory consists of parts and accessories purchased for use in the utility business for construction, operation and maintenance purposes and is stated at average cost. Meters and transformers are capitalized when purchased.
- Capital Assets and Depreciation Capital assets, which include property, plant, equipment, and utility plant infrastructure, are recorded at historical cost or estimated historical cost when purchased or constructed. Donated

capital assets are recorded at estimated fair market value at the date of the donation.

The cost of normal maintenance and repairs that do not add to the value of the asset or materially extend asset lives are not capitalized.

Major outlays for capital assets and improvements are capitalized as they are acquired or constructed. Interest incurred during the construction phase of proprietary fund capital assets is included as part of the capitalized value of the constructed asset. When capital assets are retired, the cost of the retired asset, less accumulated depreciation, salvage value and any cash proceeds, is charged to the Department's unrestricted net assets account.

Massachusetts General Laws require utility plant in service to be depreciated at an annual rate of 3%. To change this rate, the Department must obtain approval from the DPU. Changes in annual depreciation rates may be made for financial factors relating to cash flow for plant expansion, rather than engineering factors relating to estimates of useful lives.

- J. Accrued Compensated Absences Employee vacation leave is vested annually but may only be carried forward to the succeeding year with supervisor approval and, if appropriate, within the terms of the applicable Department policy or union contract. Generally, sick leave may accumulate according to union and Department contracts and policy, and is paid upon normal termination at the current rate of pay. The Department's policy is to recognize vacation costs at the time payments are made. The Department records accumulated, unused, vested sick pay as a liability. The amount recorded is the amount to be paid at termination at the current rate of pay.
- K. <u>Long-Term Obligations</u> The proprietary fund financial statements report long-term debt and other long-term obligations as liabilities in the proprietary fund statement of net assets.
- L. <u>Use of Estimates</u> The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosures for contingent assets and liabilities at the date of the financial statements, and the reported amounts of the revenues and expenses during the fiscal year. Actual results could vary from estimates that were used.
- M. <u>Rate of Return</u> The Department's rates must be set such that earnings attributable to electric operations do not exceed eight percent of the net cost of plant. The audited financial statements are prepared in accordance with auditing standards generally accepted in the United States of America. To determine the net income subject to the rate of return, the Department performs the following calculation. Using the net income per

the audited financials, the return on investment to the Town of Reading is added back, the fuel charge adjustment is added or deducted, and miscellaneous debits/credits (i.e., gain/loss on disposal of fixed assets, etc.) are added or deducted, leaving an adjusted net income figure for rate of return purposes. Investment interest income and bond principal payments are then deducted from this figure to determine the net income subject to the rate of return. The net income subject to the rate of return is then subtracted from the allowable eight percent rate of return, which is calculated by adding the book value of net plant and the investment in associated companies less the contributions in aid of construction multiplied by eight percent. From this calculation, the Municipal Light Board will determine what cash transfers need to be made at year end.

2. Cash and investments

Cash and investments as of June 30, 2011 are classified in the accompanying financial statements as follows:

Statement of net assets: Unrestricted cash and short-term investments Restricted cash and short-term investments Restricted investments	\$	6,596,634 16,385,677 2,200,000
Fiduciary funds: Cash and short-term investments Investments	 _	4,787,498 1,000,000 30,969,809
Total cash and investments	Ψ_=	30,303,003

Cash and investments at June 30, 2011 consist of the following:

Cash on hand Deposits with financial institutions Investments	\$	3,000 27,766,809 3,200,000
Total cash investments	\$_	30,969,809

Disclosures Relating to Interest Rate Risk

Interest rate risk is the risk that the fair value of an investment will be adversely affected by changes in market interest rates. Generally, the longer the maturity of an investment, the greater the sensitivity of its fair value to changes in market interest rates. One of the ways that the Department manages its exposure to interest rate risk is by purchasing a combination of shorter term and longer term investments and by timing cash flows from maturities so that a portion of the portfolio is maturing or

coming close to maturity evenly over time as necessary to provide the cash flow and liquidity needed for operations.

As of June 30, 2011, the Department (including the Pension Trust) had the following investments:

	j	Restricted Investments		Pension <u>Trust</u>	Maturity <u>Date</u>	Moody's Rating
Government agency bonds Freddie Mac Freddie Mac	\$	2,200,000	\$	1 <u>;</u> 000,000	9/15/2020 9/15/2020	STORY OF STORY
Total	\$_	2,200,000	\$4	<u> 1,000,000</u>	<u>-</u>	

Disclosures Relating to Credit Risk

Generally, credit risk is the risk that the issuer of an investment will not fulfill its obligation to the holder of the investment. This is measured by the assigning of a rating by a nationally recognized statistical rating organization. Presented below is the actual rating as of year end for each of the Department's (including the Pension Trust) investment types:

New Y		Minimum		Rating as of	Ye	ar End
		l enal				Not
Investment Type	Amount	Rating		<u>AAA</u>		<u>Rated</u>
Government agency bonds	\$ 3,200,000	N/A	\$_	3,200,000	\$_	-
Total	\$ 3,200,000	<u> </u>	\$_	3,200,000	\$_	-

Concentration of Credit Risk

The Department follows the Town of Reading's investment policy, which does not limit the amount that can be invested in any one issuer beyond that stipulated by Massachusetts General Laws. Investments in any one issuer (other than U.S. Treasury securities, mutual funds, and external investment pools) that represent more than 5% of the Department's total investments (including the Pension Trust investments) are as follows:

k Ay		Керопеа
<u>Issuer</u>	Investment Type	<u>Amount</u>
Freddie Mac	Government agency bonds	\$ 3,200,000

Custodial Credit Risk

Custodial Credit Risk for *deposits* is the risk that, in the event of the failure of a depository financial institution, the Department will not be able to recover its deposits or will not be able to recover collateral securities that are in the possession of an outside party. The custodial credit risk for *investments* is the risk that, in the event of the failure of the counterparty (e.g., broker-dealer) to a transaction, the Department will not be able to recover the value of its investments or collateral securities that are in the possession of another party. Massachusetts General Laws, Chapter 44, section 55, limits deposits "in a bank or trust company or banking company to an amount not exceeding sixty per cent of the capital and surplus of such bank or trust company or banking company, unless satisfactory security is given to it by such bank or trust company or banking company for such excess." The Department follows the Massachusetts statute as written, as well as the Town of Reading's deposit policy for custodial credit risk.

Because the Department pools its cash with the Town of Reading, the specific custodial credit risk of the Department's deposits could not be determined at June 30, 2011. As of June 30, 2011, Department investments (including the Pension Trust) in the following investment types were held by the same broker-dealer (counterparty) that was used by the Department to buy the securities:

Investment Type	£5.	Rep	orted Amount
Government agency bonds		\$_	3,200,000
Total		\$_	3,200,000

3. Restricted Cash and Investments

Restricted cash and investments consist of the following at June 30, 2011:

		<u>Cash</u>	<u> Ir</u>	<u>nvestments</u>
Depreciation fund	\$	4,297,944	\$	-
Deferred fuel reserve		3,055,225		-
Rate stabilization		5,046,137		1,000,000
Deferred energy conservation reserve		170,788		-
OPEB reserve		969,499		200,000
Reserve for uncollectible accounts		200,000		-
Sick leave benefits		1,934,699		1,000,000
Hazardous waste fund		150,000		-
Customer deposits		561,385	_	
Total	\$_	16,385,677	\$_	2,200,000

Restricted investments are invested in government agency bonds, which will be held to maturity, and are reported at book value of \$ 2,200,000. The fair market value of the investments at June 30, 2011 was \$ 2,174,282.

The Department maintains the following restricted cash accounts:

- <u>Depreciation fund</u> The Department is normally required to reserve 3.0% of capital assets each year to fund capital improvements.
- <u>Deferred fuel reserve</u> The Department transfers the difference between the customers' monthly fuel charge adjustment and actual fuel costs into this account to be used in the event of a sudden increase in fuel costs.
- Rate stabilization This represents amounts set aside to help stabilize short-term cost increases resulting from fluctuations in purchase power costs.
- <u>Deferred energy conservation reserve</u> This account is used to reserve monies collected from a special energy charge added to customer bills. Customers who undertake measures to conserve and improve energy efficiency can apply for rebates that are paid from this account.
- OPEB reserve This account is used to account for the Department's contributions to fund its actuarially determined Other Post-Employment Benefits (OPEB) liability.
- Reserve for uncollectible accounts This account was set up to offset a portion of the Department's bad debt reserve.
- <u>Sick leave benefits</u> This account is used to offset the Department's actuarially determined compensated absence liability.
- Hazardous waste fund -This reserve was set up by the Board of Commissioners to cover the Department's insurance deductible in the event of a major hazardous materials incident.
 - <u>Customer deposits</u> Customer deposits that are held in escrow.

4. Accounts Receivable

Accounts receivable consists of the following at June 30, 2011:

Customer Accounts: Billed Less allowances: Uncollectible accounts Sales discounts Total billed Unbilled, net Total customer accounts	\$ 3,607,974 (200,000) (296,467) 3,111,507 4,830,294 7,941,801

6. Inventory

Inventory is comprised of supplies and materials at June 30, 2011, and is valued using the average cost method.

Investment in Associated Companies

Under agreements with the New England Hydro-Transmission Electric Company, Inc. (NEH) and the New England Hydro-Transmission Corporation (NHH), the Department has made the following advances to fund its equity requirements for the Hydro-Quebec Phase II interconnection. The Department is carrying its investment at cost, reduced by shares repurchased. The Department's equity position in the Project is less than one-half of one percent.

Investment in associated companies consists of the following, at June 30, 2011:

New England Hydro-Transmission Electric Company, Inc. New England Hydro-Transmission Corporation	\$_	15,748 61,715
Total	\$_	77,463

8. Capital Assets

The following is a summary of fiscal year 2011 activity in capital assets (in thousands):

9. <u>Accounts Payable</u>

Accounts payable represent fiscal 2011 expenses that were paid after June 30, 2011.

10. Customer Deposits

This balance represents deposits received from customers that are held in escrow.

11. Customer Advances for Construction

This balance represents deposits received from vendors in advance for work to be performed by the Department. The Department recognizes these deposits as revenue after the work has been completed.

12. <u>Accrued Liabilities</u>

Accrued liabilities consist of the following at June 30, 2011:

Accrued payroll Accrued interest Other	\$	215,991 3,550 171,119
Total	\$	390,660
1 O Lai		

13. Accrued Employee Compensated Absences

Department employees are granted sick leave in varying amounts. Upon retirement, termination, or death, employees are compensated for unused sick leave (subject to certain limitations) at their then current rates of pay.

14. Restricted Net Assets

The proprietary fund financial statements report restricted net assets when external constraints are placed on net assets. Specifically, restricted net assets represent depreciation fund reserves, which are restricted for future capital costs.

15. Post-Employment Health Care and Life Insurance Benefits

Other Post-Employment Benefits

The Department follows GASB Statement 45, Accounting and Financial Reporting by Employers for Postemployment Benefits Other Than Pensions. Statement 45 requires governments to account for other post-employment benefits (OPEB), primarily healthcare, on an accrual basis rather than on a pay-as-you-go basis. The effect is the recognition of an actuarially required contribution as an expense on the Statement of Revenues, Expenses, and Changes in Net Assets when a future retiree earns their post-employment benefits, rather than when they use their post-employment benefit. To the extent that an entity does not fund their actuarially required contribution, a post-employment benefit liability is recognized on the Statement of Net Assets over time.

A. Plan Description

In addition to providing the pension benefits described in Note 16, the Department provides post-employment health and life insurance benefits for retired employees through the Town of Reading's Massachusetts Interlocal Insurance Association (MIIA) Health Benefits Trust. Benefits, benefit levels, employee contributions and employer contributions are governed by Chapter 32 of the Massachusetts General Laws. As of June 30, 2008, the actuarial valuation date, approximately 72 retirees and 64 active employees meet the eligibility requirements. The plan does not issue a separate financial report.

B. Benefits Provided

The Department provides post-employment medical, prescription drug, and life insurance benefits to all eligible retirees and their surviving spouses. All active employees who retire from the Department and meet the eligibility criteria will be eligible to receive these benefits.

C. Funding Policy

As of the June 30, 2008, the actuarial valuation date, retirees were required to contribute 30% of the cost of the medical and prescription drug plan, as determined by the MIIA Health Benefits Trust. In 2010, this required contribution changed to 29%. Retirees also contribute 50% of the premium for a \$ 5,000 life insurance benefit. The Department contributes the remainder of the medical, prescription drug, and life insurance plan costs on a pay-as-you-go basis

D. Annual OPEB Costs and Net OPEB Obligation

The Department's fiscal 2011 annual OPEB expense is calculated based on the annual required contribution of the employer (ARC), an amount actuarially determined in accordance with the parameters of GASB Statement No. 45. The ARC represents a level of funding that, if paid on an ongoing basis, is projected to cover the normal cost per year and amortize the unfunded actuarial liability over a period of twenty years. The following table shows the components of the Department's annual OPEB cost for the year ending June 30, 2011, the amount actually contributed to the plan, and the change in the Department's net OPEB obligation based on an actuarial valuation as of June 30, 2008.

Annual Required Contribution (ARC) Interest on net OPEB obligation Adjustment to ARC	\$	680,035 225,946 -
Annual OPEB cost		905,981
Contributions made		<u>(553,642)</u>
Increase in net OPEB obligation		352,339
Net OPEB obligation - beginning of year	(<u>" </u>	813,461
Net OPEB obligation - end of year	\$	1,165,800

The Department's annual OPEB cost, the percentage of annual OPEB cost contributed to the plan, and the net OPEB obligation for fiscal year 2011 and the two preceding fiscal years were as follows:

Fiscal year ended	Annual OPEB Cost	Percentage of OPEB Cost Contributed	Net OPEB Obligation
06/30/09	\$ 890,140	50.97%	\$ 436,402
06/30/10	\$ 878,668	57.09%	\$ 813,461
06/30/11	\$ 905,981	61.11%	\$ 1,165,800

The Department's net OPEB obligation as of June 30, 2011 is recorded as a component of the "noncurrent liabilities" line item in the Statements of Net Assets.

E. Funded Status and Funding Progress

The funded status of the plan as of June 30, 2008, the date of the most recent actuarial valuation was as follows:

Actuarial accrued liability (AAL) Actuarial value of plan assets	\$	8,085,388
Unfunded actuarial accrued liability (UAAL)	\$_	8,085,388
Funded ratio (actuarial value of plan assets/AAL)	=	0%
Covered payroll (active plan members)	!	Not available
UAAL as a percentage of covered payroll		Not available

In fiscal year 2010, the Department's Board of Commissioners voted to accept the provisions of Massachusetts General Law Chapter 32B §20, to create an *Other Post Employment Benefits Liability Trust Fund* as a mechanism to set aside monies to fund its OPEB liability. In fiscal year

2011, the department contributed \$ 1,165,800 to this fund, which was equal to its actuarially determined OPEB liability at June 30, 2011. Because these monies are not held in an irrevocable trust supported by a trust instrument, as required by GASB 45, they are reported as restricted net assets on the Department's Statements of Net Assets.

Actuarial valuations of an ongoing plan involve estimates of the value of reported amounts and assumptions about the probability of events far into the future. Examples include assumptions about future employment, mortality, and the healthcare cost trend. Amounts determined regarding the funded status of the plan and the annual required contributions of the employer are subject to continual revision as actual results are compared to past expectations and new estimates are made about the future. The schedule of funding progress, presented as required supplementary information following the notes to the financial statements, presents multi-year trend information about whether the actuarial value of plan assets is increasing or decreasing over time relative to the actuarial accrued liability for benefits.

F. Actuarial Methods and Assumptions

Projections of benefits for financial reporting purposes are based on the plan as understood by the Department and the plan members and include the types of benefits provided at the time of each valuation and the historical pattern of sharing of benefit costs between the Department and plan members to that point. The actuarial methods and assumptions used include techniques that are designed to reduce short-term volatility in actuarial accrued liabilities and the actuarial value of assets, consistent with the long-term perspective of the calculations.

In the June 30, 2008 actuarial valuation, the Projected Unit Credit actuarial cost method was used. The actuarial value of assets was not determined, as the Department has not advance funded its obligation. The actuarial assumptions included a 7.75% investment rate of return and an initial annual health care cost trend rate of 10.0% which decreases to a 5.0% long-term rate for all health care benefits after seven years. The amortization costs for the initial UAAL is a level percentage of payroll amortization, with amortization payments increasing at 2.5% per year for a period of 20 years.

16. Pension Plan

The Department follows the provisions of GASB Statement No. 27, (as amended by GASB 50) *Accounting for Pensions for State and Local Government Employees*, with respect to the employees' retirement funds. Chapter 32 of the Massachusetts General Laws assigns the System the authority to establish and amend benefit provisions of the plan, and the

State legislature has the authority to grant cost-of-living increases. The System issues a publicly available financial report which can be obtained through the Town of Reading Contributory Retirement system at Town Hall, Reading, MA.

A. Plan Description

The Department contributes to the Town of Reading Contributory Retirement System (the System), a cost-sharing, multiple-employer, defined benefit pension plan administered by a Town Retirement Board. The System provides retirement, disability and death benefits to plan members and beneficiaries. Chapter 32 of the Massachusetts General Laws assigns the System the authority to establish and amend benefit provisions of the plan, and grant cost-of-living increases.

B. Funding Policy

Plan members are required to contribute to the System at rates ranging from 5% to 11% of annual covered compensation. The Department is required to pay into the System its share of the remaining system wide actuarially determined contribution plus administration costs which are apportioned among the employers based on active covered payroll. The contributions of plan members and the Department are governed by Chapter 32 of the Massachusetts General Laws. The Department's contributions to the System for the years ended June 30, 2011, 2010, and 2009 were \$ 1,278,695, \$ 919,336, and \$ 896,185, respectively, which were equal to its annual required contributions for each of these years.

17. Participation in Massachusetts Municipal Wholesale Electric Company

The Town of Reading, acting through its Light Department, is a participant in certain Projects of the Massachusetts Municipal Wholesale Electric Company (MMWEC).

MMWEC is a public corporation and a political subdivision of the Commonwealth of Massachusetts, created as a means to develop a bulk power supply for its Members and other utilities. MMWEC is authorized to construct, own, or purchase ownership interests in, and to issue revenue bonds to finance, electric facilities (Projects). MMWEC has acquired ownership interests in electric facilities operated by other entities and also owns and operates its own electric facilities. MMWEC sells all of the capability (Project Capability) of each of its Projects to its Members and other utilities (Project Participants) under Power Sales Agreements (PSAs). Among other things, the PSAs require each Project Participant to pay its *pro rata* share of MMWEC's costs related to the Project, which costs include debt service on the revenue bonds issued by MMWEC to finance the Project, plus 10% of MMWEC's debt ser-

vice to be paid into a Reserve and Contingency Fund. In addition, should a Project Participant fail to make any payment when due, other Project Participants of that Project may be required to increase (step-up) their payments and correspondingly their Participant's share of that Project's Project Capability to an additional amount not to exceed 25% of their original Participant's share of that Project's Project Capability. Project Participants have covenanted to fix, revise, and collect rates at least sufficient to meet their obligations under the PSAs.

MMWEC has issued separate issues of revenue bonds for each of its eight Projects, which are payable solely from, and secured solely by, the revenues derived from the Project to which the bonds relate, plus available funds pledged under MMWEC's Amended and Restated General Bond Resolution (GBR) with respect to the bonds of that Project. The MMWEC revenues derived from each Project are used solely to provide for the payment of the bonds of any bond issue relating to such Project and to pay MMWEC's cost of owning and operating such Project and are not used to provide for the payment of the bonds of any bond issue relating to any other Project.

MMWEC operates the Stony Brook Intermediate Project and the Stony Brook Peaking Project, both fossil-fueled power plants. MMWEC has a 3.7% interest in the W.F. Wyman Unit No. 4 plant, which is operated and owned by its majority owner, FPL Energy Wyman IV, LLC, a subsidiary of NextEra Energy Resources LLC (formerly FPL Energy LLC), and a 4.8% ownership interest in the Millstone Unit 3 nuclear unit, operated by Dominion Nuclear Connecticut, Inc. (DNCI), the majority owner and an indirect subsidiary of Dominion Resources, Inc. DNCI also owns and operates the Millstone Unit 2 nuclear unit. The operating license for the Millstone Unit 3 nuclear unit extends to November 25, 2045.

A substantial portion of MMWEC's plant investment and financing program is an 11.6% ownership interest in the Seabrook Station nuclear generating unit operated by NextEra Energy Seabrook, LLC (NextEra Seabrook) (formerly FPL Energy Seabrook LLC), the majority owner and an indirect subsidiary of NextEra Energy Resources LLC (formerly FPL Energy LLC). The operating license for Seabrook Station extends to March, 2030. NextEra Seabrook has submitted an application to extend the Seabrook Station operating license for an additional 20 years.

Pursuant to the PSAs, the MMWEC Seabrook and Millstone Project Participants are liable for their proportionate share of the costs associated with decommissioning the plants, which costs are being funded through monthly Project billings. Also the Project Participants are liable for their proportionate share of the uninsured costs of a nuclear incident that might be imposed under the Price-Anderson Act (Act). Originally enacted in 1957, the Act has been renewed several times. In July 2005, as part of the Energy Policy Act of 2005, Congress extended the Act until the end of 2025.

Reading Municipal Light Department has entered into PSAs and Power Purchase Agreements (PPAs) with MMWEC. Under both the PSAs and PPAs, the Department is required to make certain payments to MMWEC payable solely from Department revenues. Under the PSAs, each Participant is unconditionally obligated to make all payments due to MMWEC, whether or not the Project(s) is completed or operating, and notwithstanding the suspension or interruption of the output of the Project(s).

MMWEC is involved in various legal actions. In the opinion of MMWEC management, the outcome of such actions will not have a material adverse effect on the financial position of the company.

Seven municipal light departments that are Participants under PSAs with MMWEC have submitted a demand for arbitration of a dispute relating to charges under the PSAs. MMWEC cannot predict the outcome of the arbitration demand, but in the opinion of MMWEC management, it will not have a material adverse effect on the financial position of MMWEC.

Total capital expenditures for MMWEC's Projects amounted to \$ 1,578,484,000, of which \$ 113,067,000 represents the amount associated with the Department's share of Project Capability of the Projects in which it participates, although such amount is not allocated to the Department. MMWEC's debt outstanding for the Projects includes Power Supply System Revenue Bonds totaling \$ 358,420,000, of which \$ 17,135,000 is associated with the Department's share of Project Capability of the Projects in which it participates, although such amount is not allocated to the Department. After the July 1, 2011 principal payment, MMWEC's total future debt service requirement on outstanding bonds issued for the Projects is \$ 420,481,000, of which \$ 19,693,000 is anticipated to be billed to the Department in the future.

The estimated aggregate amount of Reading Municipal Light Department's required payments under the PSAs and PPAs, exclusive of the Reserve and Contingency Fund billings, to MMWEC at June 30, 2011 and estimated for future years is shown below.

		4	<u> Annual Costs</u>
For years ended June 30,	2012	\$	4,583,000
	2013		4,315,000
	2014		3,706,000
	2015		2,729,000
	2016		2,700,000
	2017 - 2020	_	1,660,000
	Total	\$_	19,693,000

In addition, under the PSA's, the Department is required to pay to MMWEC its share of the Operation and Maintenance (O&M) costs of the Projects in

which it participates. The Department's total O&M costs including debt service under the PSAs were \$ 14,683,000 and \$ 14,350,000 for the years ended June 30, 2011 and 2010, respectively.

18. Environmental Remediation

In August of 2009, while working on a transformer upgrade project at the GAW Substation, the Department discovered soil that was contaminated with polychlorinated biphenyls (PCB's). This contamination was traced to a capacitor bank lineup located on the south side of the Gaw Substation control house. Once utilized to stabilize voltage, these capacitor banks were removed from the Substation decades prior to the onset of the transformer upgrade project.

Site cleanup at Gaw Substation was conducted by a Commonwealth of Massachusetts Licensed Site Professional in compliance with United States Environmental Protection Agency (US EPA) and Massachusetts Department of Environmental Protection (MA DEP) regulations. Analysis, soil sampling, and remediation of the contaminated area began in fiscal year 2010 and was completed in fiscal year 2011.

As of June 30, 2011, environmental remediation costs related to the Gaw Substation project totaled \$ 2,482,826, of which, \$ 1,386,395 was expended in fiscal year 2011. The Department has temporarily modified its rate structure to include a Hazardous Material Charge of \$ 0.001/kWh, which is designed to recover a portion of the Gaw Substation soil remediation costs over the next three years.

19. <u>Leases</u>

Related Party Transaction - Property Sub-Lease

The Department is sub-leasing facilities to the Reading Massachusetts Town Employees Federal Credit Union. The original sub-lease agreement commenced in December 2000 and ended in November 2005. A new agreement, which extended the lease through November 30, 2008, was signed on December 1, 2005. An additional amendment, effective December 1, 2008, extends the lease through November 30, 2011. The following is the future minimum rental income for the years ending June 30:

2012 \$ <u>3,630</u>
Total \$ <u>3,630</u>

20. NStar Radial Transmission Charges

Effective November 10, 1979, RMLD entered into FERC Rate Schedule No. 125 with Boston Edison Co. (now NStar) to transmit power to the Gaw Substation over two radial 115kV transmission lines (Lines 211) 503 and 211-504). Rate Schedule No. 125 provided for RMLD to pay \$41,635 per month for the "support" (i.e., operation and maintenance costs) of these radial transmission lines. In approximately April 2003, NStar and National Grid constructed new facilities which "looped" Lines 211-503 and 211-504 and made them eligible for treatment as Pool Transmission Facilities ("PTF"). Once Lines 211-503 and 211-504 were reclassified from radial to PTF facilities, their costs became eligible for recovery through Regional Network Service rates paid by all customers under the ISO New England ("ISO NE") Tariff under either of two alternatives. First, NStar could have rolled in the costs associated with those lines to its revenue requirement for Regional Network Service rates, which would be socialized by NStar throughout all New England. Second, NStar could have left Rate Schedule No. 125 in place as a "grandfathered" support agreement, and RMLD could have included the charges it paid under Rate Schedule No. 125 in its revenue requirement for the Regional Network Service Rates, which would be socialized by RMLD throughout all New England. However, RMLD was not notified that Lines 211-503 and 211-504 had been reclassified as PTF, and NStar left Rate Schedule No. 125 in place without advising RMLD of the opportunity to include its costs under that Rate Schedule in RMLD's revenue requirement for Regional Network Service rates.

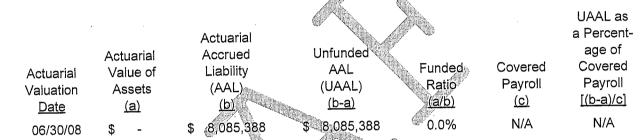

In May 2011, RMLD discovered that NStar Lines 211-503 and 211-504 had been reclassified as PTF, and that continuation of Rate Schedule No. 125 in effect without including RMLD's payments in Regional Network Service rates was no long appropriate. RMLD contacted NStar, and with the assistance of legal counsel, was able to terminate Rate Schedule No. 125 effective June 1, 2011. In light of the fact that Rate Schedule No. 125 contained a limitation of claims clause, previously upheld by the federal courts, that limited RMLD's ability to challenge to bills issued within the previous twelve months, RMLD determined that its customers were better off if RMLD incorporated the costs of the terminated agreement in its Regional Network Service revenue requirement, through a true-up mechanism for the prior twelve months and for the five months of 2011 during which Rate Schedule No. 125 had been in effect. Between July 1, 2011 and June 30, 2012, the use of the Regional Network Service revenue requirement true-up mechanism will recover approximately \$ 220,968 in charges paid under Rate Schedule No. 125. The value of payments made under Rate Schedule No. 125 between June 2003 and December, 2009, which cannot be recovered due to the claims limitation under Rate Schedule No. 125 and the limited scope of available cost recovery under the ISO-NE Tariff, is approximately \$1,072,000.

ITEM 6.

August P&L Financials

Dt: September 28, 2011

To: RMLB, Vincent F. Cameron, Jr., Jeanne Foti

Fr: Bob Fournier

Sj: August 31, 2011 Report

The results for the first two months ending August 31, 2011, for the fiscal year 2012 will be summarized in the following paragraphs. August showed a positive change in net assets.

1) Change in Net Assets: (Page 3A)

For the month of August, the net income or the positive change in net assets was \$769,308, bringing the year to date net income to \$1,467,172. The year to date budgeted net income was \$1,892,412, the difference being \$425,239 or 22.47%. Year to date fuel expenses exceeded fuel revenues by \$84,209.

2) Revenues: (Page 11B)

Year to date base revenues were under budget by \$449,428 or 4.75%. Actual base revenues were \$9.0 million compared to the budgeted amount of \$9.4 million.

3) Expenses: (Page 12A)

*Year to date purchased power base expense was \$291,709 or 5.82% under budget. Actual purchased power base costs were \$4.7 million compared to the budgeted amount of \$5.0 million.

*Year to date operating and maintenance (O&M) expenses combined were over budget by \$13,962 or .72%. Actual O&M expenses were \$1.940 million compared to the budgeted amount of \$1.926 million.

*Depreciation expense and voluntary payments to the Towns were on budget.

4) General Information:

Year to date kwh sales (Page 5) were 138,858,489, which is 1.1 million kwh or .77%, behind of last year's figure.

6) Budget Variance:

Cumulatively, the five divisions were over budget by \$3,684 or .12%.
