Press Release

RMLD Informational Forum – Benefits of Distributed Generation to Shave the Peak

North Reading, MA, July 14, 2016 - Reading Municipal Light Department (RMLD) will be hosting an informational forum at the North Reading Senior Center on Tuesday, July 26, 2016 at 7:00pm. At the forum RMLD personnel will review the benefits of peak shaving using mini distributed generation (DG) equipment to be installed at RMLD's substation in North Reading. Learn how investments in technologies like DG can improve our system's reliability, resiliency and reduce the impact of rising utility industry costs. For questions or comments, call Tom Ollila at 781-942-6426 or visit RMLD's website: www.rmld.com.
