RMLD Invites New and Experienced Homeowners to Attend VIRTUAL Info Session on June 24th

Reading, MA – Reading Municipal Light Department (RMLD) invites residential customers to learn about their electric service as well as ways to save energy and money at RMLD's first-ever virtual Homeowner Info Session which will be held on Wednesday, June 24, 2020 at 7:00 pm. This webinar is a continuation of the Homeowner Info Sessions that were scheduled to take place at area libraries in March; two of the four sessions were cancelled due to COVID-19. Topics include available energy efficiency programs such as rebates and the no-cost home energy assessment; RMLD tools such as the online Bill Payment System, Online Store, and upcoming Customer Notification System; programs such as Solar Choice and Shred the Peak; and energy efficiency tips. Technical staff will also provide an overview of the home electrical service configuration covering topics such as ownership and safety.

This virtual info session is a great opportunity for both new and experienced homeowners to learn about their electrical service and RMLD programs. RMLD customers who rent are also welcome!

Attending customers will be able to submit written questions to RMLD staff during the webinar. The session will be recorded and posted to RMLD's website for those who are not able to attend live.

For more information and to register, please visit <https://www.rml.com/home/pages/virtual-homeowner-info-session>.

####

About Reading Municipal Light Department: Established in 1894, Reading Municipal Light Department (RMLD) is a municipal electric utility serving over 68,000 residents in the towns of Reading, North Reading, Wilmington, and Lynnfield Center. RMLD has over 29,000 meter connections within its service territory.
