# Solar Choice Program Overview

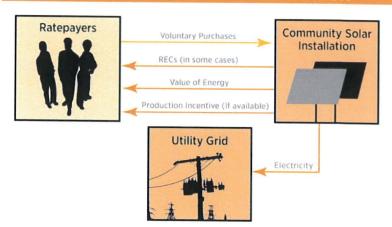

An Explanation of Solar Choice and Its Benefits

## What is Solar Choice (SC)?

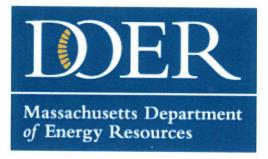

- RMLD's implementation of Community Shared Solar (CSS) concept
- A win-win partnership between a private developer, a municipal utility, the site owner, the town and end user participants
- Private developer captures the substantial Federal & State tax incentives and depreciation benefits that are unavailable to municipal entities

#### **COMMUNITY SHARED SOLAR INSTALLATION**

- Mass DOER developed the CSS Public Lease Model to accelerate deployment of solar to the ~80% of population that do not have "perfect roofs"
- DOER has formally verified that RMLD's SC Program meets CSS guidelines & will earn full SREC values

Solar Choice Program Overview

June 2016 Slide 2

### **How Will Solar Choice Work?**

- The site owner & RMLD select an SC vendor to finance, engineer, procure, construct, own and operate a solar PV system to be installed on a privately owned site
- RMLD negotiates a PPA with the SC Vendor to purchase all of the output from the system
- RMLD approves the system specs and its interconnection to the grid
- RMLD solicits residential customers to sign up for SC program
- SC Vendor receives Federal/State tax incentives and SREC revenue
- The site owner receives lease payment for use of property site rooftop and/or parking lot space
- The town receives personal property tax payment based on the value of the PV system
- SC Vendor tracks system performance & relays data to RMLD who integrates payment and credit info into participating customers' monthly electric bills

Solar Choice Program Overview

## **How Would Solar Choice Stakeholders Benefit?**

### **✓** The Site Owner

- Receives lease payment for property site rooftop and/or parking lot space
- Solar canopies provide protection for vehicles in site parking lot
- Opportunity to purchase a percentage of the system output as a Solar Choice participant

#### ✓ RMLD Customers

- Opportunity for all participating RMLD customers to benefit from clean, green renewable solar energy
- Fixed price solar energy for a portion of their load for ten year term
- Potential for reduced electric expenses based on SC Credits, starting in second program year
- None of the hassle/maintenance/risk associated with installing solar equipment on their own property

### √ The Town of Wilmington

Receives property tax payment based on value of the PV system

#### RMLD

- Opportunity to add "home grown" clean, green renewable solar energy to RMLD's wholesale power supply portfolio
- Minimize capital expenses for solar system
- Reduced wholesale power supply, capacity & transmission costs

## **Solar Choice Project – Participant Benefits**

- ✓ Clean Energy Customers benefit from zero carbon, local, green, renewable solar energy
- ✓ Rate Increase Hedge Fixed price solar energy for a portion of their load for ten year term
- ✓ Lower Monthly Bills Potential for reduced electric expenses based on SC Credits, starting in second program year
- ✓ No Capital Investment None of the hassle/maintenance/risk associated with purchasing and installing solar equipment on their own property

### **SC Participant Estimates:**

Ave Participant's Load from Solar ~30%

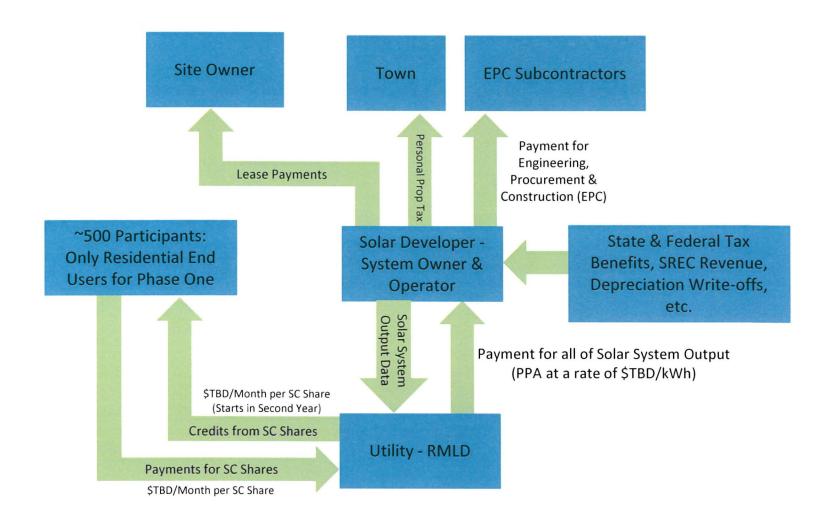

Participant Fee \$6.00/Month

Potential 10 Year Total Savings ~\$300
